

Alex Rivera

Senior Software Engineer | Python, TypeScript, Applied AI

seattle@example.com | (206) 555-0142 | Seattle, WA | linkedin.com/in/alexrivera

PROFESSIONAL SUMMARY

Software engineer with 8 years building backend services and applied AI features. Comfortable shipping production APIs, retrieval pipelines, and interview-prep products used by hiring teams. Looking for a senior role that mixes systems work with LLM applications.

EXPERIENCE

Staff Software Engineer - Northwind Labs

2022 - Present

Seattle, WA | Career intelligence and recruiting tools

- Led a document-indexing service that parses resumes and job descriptions into structured skill graphs.
- Designed RAG search over pgvector so recruiters can ask grounded questions about a candidate packet.
- Cut p95 parse latency from 9.4s to 2.1s by batching embeddings and streaming PDF text extraction.

Senior Software Engineer - Cascade Analytics

2018 - 2022

Remote | Data platform for B2B SaaS

- Owned Python FastAPI services and Vue dashboards used by 40+ enterprise customers.
- Introduced background jobs for report generation and reduced failed uploads by 38%.
- Mentored four engineers; established code-review and on-call practices.

EDUCATION

B.S. Computer Science - University of Washington

2014 - 2018

SKILLS

Python, TypeScript, Vue, FastAPI, PostgreSQL, pgvector, LangGraph, Docker, AWS, pytest, Git.
